

## Cheminetha® – the perfect ethanol blend for your fireplace

Cheminetha® - a specially formulated ethanol blend from alcosuisse specifically designed for use in fireplaces without chimneys. This blend was developed with the assistance of the state alcohol laboratory METAS and optimized to meet the specific requirements for use in fireplaces:

- In extensive testing the optimal ethanol quality and the best additives for beautiful, even and strong flames were developed.
- Exceptionally low soot formation with minimized impurities. Thanks to the professional support of the state METAS, a blend was developed that reduces the health risks of an ethanol fireplace to an absolute minimum. Every canister we produce is tested by state authorities – because trust in product quality is critical, especially in the ethanol market.
- Cosiness without a guilty conscience: we use only ethanol from certified producers who have signed the Alcosuisse Supplier Charta. This ensures that the strict specifications regarding quality, as well as social and ecological sustainability, are guaranteed.

Cheminetha® – for carefree and comforting cosiness.

Overview of specifications	Cheminetha®
Ethanol content	Min. 94 % m/m
Acetaldehyde + acetal	≤ 5 ppm V/V
Methanol	≤ 150 ppm v/V
Appearance	Clear and colourless
Organoleptic	Present
Acid	≤ 12 mg/l
Benzene	≤ 1 ppm v/V
Vaporisation residue	≤ 10 mg/l
Other volatile impurities	≤ 150 ppm v/V
