

To our
valued business partners

Bern, November 2020

Alcosuisse – New address. New image. Same excellent service.

Dear all,

Time to move! For more than two years now, Alcosuisse AG has been part of the Thommen-Furler Group, the Swiss market leader and one-stop shop for chemical distribution, disposal and support. To take even better advantage of the synergies with our parent company, we are moving our headquarters from our current site in Bern to the Thommen-Furler AG site in Rüti b. Büren:

**Alcosuisse AG
Industriestrasse 10
CH-3295 Rüti bei Büren**

For you as a customer, the relocation of the headquarters means that, in addition to Alcosuisse's new postal address, the bank details and the introduction of QR invoices (ISO standard 20022) are also changing. From this point on, please consistently use the QR code for invoice processing.

If you are not yet able to process QR invoices, please use the following account connections in future:

- CHF IBAN: CH36 0483 5217 1876 8100 0, Credit Suisse Bern
- EURO IBAN: CH02 0483 5217 1876 8200 0, Credit Suisse Bern
- USD IBAN: CH72 0483 5217 1876 8200 1, Credit Suisse Bern

We are convinced that this move will further consolidate and enhance the strengths of Alcosuisse AG. As always, our focus will be on high and stable GMP product quality, service quality that is consistently aligned with customer needs and continuously improving our processes and product range.

The relocation of our headquarters does not entail any changes to our offering and processes. Our operating sites in Schachen (LU) and Delémont (JU) will not be subject to any changes, and the GMP quality system will remain unchanged.

To coincide with the relocation of Alcosuisse AG's headquarters, the Thommen-Furler Group is giving itself a new image with a uniform identifying feature, which will see Alcosuisse be represented under the corporate logo shown in the letter head as of 1 January 2021.

All telephone numbers and e-mail addresses will remain the same. Any existing contracts and agreements bearing the current headquarters address will remain in force and will be amended to feature the new address in the event that they are reissued.

We would of course be happy to help you at any time if you have any questions about the move or our product range. Thank you very much for your fruitful cooperation.

Your Alcosuisse team
